1936 AGRICULTURAL CONSERVATION PROGRAM -- EAST CENTRAL REGION

Bulletin No. 4 - Delaware

COUNTY AVERAGE RATES OF SOIL-CONSERVING PAYMENTS IN
CONNECTION WITH THE GENERAL SOIL-DEPLETING BASE

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, East Central Region, Bulletin No. 1, Revised, is hereby supplemented as follows:

Section 1. County Average Rates of Soil-Conserving Payments for Production of Soil-Conserving Crops on Acreage Diverted from the General Soil-Depleting Base.

In accordance with the provisions of Section 2 (a), Part II of East Central Region Bulletin No. 1, Revised, and subject to the provisions of said bulletin and all other bulletins heretofore or hereafter issued, the county average rates of payment per acre to be used in determining payments for each acre of the general soil-depleting base which in 1936 is used for the production of soil-conserving crops for the respective counties of Delaware shall be as shown hereunder:

Section 2. Rates of Payment for Individual Farms.

For any individual farm in the respective counties the rate of payment for each acre of the general soil-depleting base (not in excess of 15 percent of the general soil-depleting base for any farm) which in 1936 is used for the production of soil-conserving crops, shall be that rate determined by multiplying the county average rate for the county in which the farm is located by the productivity index established for the farm in accordance with the provisions of Section 26, Part III, East Central Region, Bulletin No. 3, and dividing the result by 100.

IN TESTIMONY WHEREOF, H. A. Wallace,
Secretary of Agriculture, has hereunto
set his hand and caused the official
seal of the Department of Agriculture
to be affixed in the City of Washington,
District of Columbia, this 29th day of
May, 1936.

COUNTY AVERAGE RATES OF SOIL-CONSERVING PAYMENTS IN
CONNECTION WITH THE GENERAL SOIL-DEPLETING BASE

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, East Central Region, Bulletin No. 1, Revised, is hereby supplemented as follows:

Section 1. County Average Rates of Soil-Conserving Payments
for Production of Soil-Conserving Crops on Acreage Diverted from
the General Soil-Depleting Base.

In accordance with the provisions of Section 2 (a), Part II of East Central Region Bulletin No. 1, Revised, and subject to the provisions of said bulletin and all other bulletins heretofore or hereafter issued, the county average rates of payment per acre to be used in determining payments for each acre of the general soil-depleting base which in 1936 is used for the production of soil-conserving crops for the respective counties of West Virginia shall be as shown hereunder:

Section 2. Rates of Payment for Individual Farms.

For any individual farm in the respective counties the rate of payment for each acre of the general soil-depleting base (not in excess of 15 percent of the general soil-depleting base for any farm) which in 1936 is used for the production of soil-conserving crops, shall be that rate determined by multiplying the county average rate for the county in which the farm is located by the productivity index established for the farm in accordance with the provisions of Section 26, Part III, East Central Region, Bulletin No. 3, and dividing the result by 100.

IN TESTIMONY WHEREOF, H. A. Wallace,
Secretary of Agriculture, has hereunto
set his hand and caused the official
seal of the Department of Agriculture
to be affixed in the City of Washington,
District of Columbia, this 29th day of
